Subject: Agenda and Notes for Further Discussion with Automakers
Attachments: Automakers Discussion Questions.docx; Automakers.EPA.Draft Agenda.March 30.docx

Hello Stacy

Thank you for the call this week to discuss the process to follow up on a few questions on the chemicals where we share mutual interests. Here is a draft agenda, and some questions, organized by chemical. As you can see, some of the topics are similar among the chemicals. We decided to structure the agenda based on the chemicals, and not by topic. We hope this is a workable format, but clearly you will note some duplication among the areas for further discussion and clarification among the chemicals.

Stacy, please share with your team, and let's discuss scheduling a call. We don't expect people to conduct any extensive surveys or anything like that. These are just some areas of clarification. And thanks Ingrid for organizing the information, and thanks to the EPA team for sending their areas of follow up on time.

doug
